# MVP of VG_Sales (Video Games Sales)

In this folder, the Minimum Viable Product (MVP) is provided.

The initial steps in detail are provided in the Jupyter notebook. The data explored in addition to the EDA phase is done.

The MVP notebook summarizes the following:

- Explore the features
- Fill the missing data
- Drop any unnecessary features
- Display some fig
- Rebuild data to be ready for create module
- Train and test a model to product the data and got 80.6%

The following figure show difference between Genre type in global sales:

There are a few more steps to finish the project:

Use different models to product genre.
